India's No.1 Tile Company

**UNI
TERRA**

BESPOKE SINTERED SURFACES

**A STATEMENT
IN EVERY SQUARE FOOT**

EXCELLENCE

IS THE BARE MINIMUM

At UniTerra, we understand the work that goes into creating a space that's luxurious and one-of-a-kind. You are building a haven, a sanctuary, whether it's a home or a workplace. So, we start with a clear & concise brief for every variant, every range, every surface - create the best.

The finest raw materials sourced from around the world are moulded using technology that's unrivalled in its precision and quality. Our designers and curators guide these processes to create a product that can help you build an elegant, unique property.

BEAUTY WITH

BRAWN

SINTERING IS CENTRAL

This process makes our surfaces impervious to effect and damage. It also allows us to create surfaces that can span large dimensions - up to 1190mm x 2800mm, 1190mm x 2400mm, and 1190mm X 600 mm - without compromising on strength, quality, and integrity.

SPEAKING OF SLEEK

Our surfaces are immensely versatile and easy to work with. Think of them for your floors, or walls. Even on worktops and facades. They can adorn your workspace or leisure space. They can elevate your bathroom to a spa, your living room to a gallery. If you can think it, UniTerra can make it happen.

EXCELLENCE THROUGH-AND-THROUGH

We use a 'Colour-body' composition for our signature designs. This means that the body colour you see isn't just a skin layered on top of the surface. The body colour is the surface itself. If you were to laterally slice a unit, both pieces would look the same, inside and out.

STRENGTH

NO BAR

While our designs remain thoughtful, exclusive and attentively curated, we make no compromises on the strength they can offer. These surfaces are architected to withstand great temperatures and pressures with no effect. The sleekest surface you choose will provide the same level of structural integrity as our thickest variant.

BEAUTY

IS PARAMOUNT

Above all, our surfaces are opulent and unique. They're crafted with attention-to-detail and artistry, inspired by materials that were inaccessible so far. If it is a monument you want to bring to life, UniTerra is your imaginarium.

AGLAZE

THAT'LL HOLD YOUR GAZE

Our manufacturing processes are armed with expert levels of efficiency and technical prowess to help us deliver a product that matches your standards and exceeds your expectations. UniTerra's signature superior finish is obtained thanks to our 3 proprietary processes:

DRY GRANULA POLISHING

A high-end glazing technique that imparts a mirror-like polish effect with extravagant detail.

DIGITAL MATTE GLAZING

A superior glazing method that delivers a unique matte effect to our surfaces using digital machines.

TEXTURAL GLAZING

A first-of-its-kind technique in India with which we can create undulating surfaces like punches, carvings, and gloss with special glazes using digital machines.

IS THERE A MACHINE THAT CAN MANUFACTURE

LUXURY?
YES, **CONTINUA+**

INTRODUCING
Ai  **+ DG** 
T E C H N O L O G Y

Our facilities are equipped with Continua+ technology that achieves:

Production of large slabs using automated pressing technology

Superior surface flatness when compared to conventional pressing

Greater body strength and flexibility due to uniform roller pressing

Consistent and homogenous density

Unequalled shine, perfect slab planarity

Our sintered surfaces replicate the colours and shades of the materials of inspiration, with an amazing degree of fidelity. Continua+'s design processes balance a very high range of shades, details and patterns with an unparalleled degree of visual rendering.

The Future of Tile Surfaces

Experience the next generation of surface innovation where Artificial Intelligence blends with Digital Glazing delivering ultra fine detailing, high-definition patterns that feel alive. A breakthrough that brings tomorrow's design trends into your space today.

Ai  **+ DG**  **SURFACES:**

SCULPTED | RIVERWASH

Standout spaces are created when unique materials meet the visions of singular style. To complement your ambitions, UniTerra offers you a choice from our signature textures:

BEYOND

Our finest offering, that is ideal for a space being crafted to awe. We used advanced digital technology to develop this texture for almost zero surface reflection.

BOLD

For a finish that has a rock-like effect, we made use of special techniques and a digital glaze machine. These special effects were created to give your surface a real-life stone effect.

TEXURA

On the spectrum of matte effects, Texura lies on the lighter side of the scale. It is a rougher matte finish that is reminiscent of denim and its textures.

DRY GRANULA POLISH

This texture imparts almost a mirror-like, sharp reflection if you so need it from a surface. It allows no waviness in the reflection and echoes high-fidelity detail right back at you.

RIVERWASH Ai + DG

Inspired by water-worn stones, this finish offers a soft yet textured surface that enhances grip and safety. It brings natural depth, character, and an organic look to tiles, while also boosting durability for long-lasting beauty and performance.

SCULPTED Ai + DG

Featuring a unique three-dimensional texture, the Sculpted Finish mimics hand-carved stone and natural formations. It adds depth, character, and a tactile appeal, creating dynamic surfaces with rich shadows and highlights. Perfect for feature walls, accent areas, and luxury spaces, this finish offers a striking blend of artistry, elegance, and craftsmanship.

DRY GRANULA MARBLETECH (DG M-TECH)

This finish combines cutting-edge glaze technology with advanced dry granula polishing to replicate the authentic look and feel of natural marble. The result is a smooth, glossy, and stain-resistant surface with a premium marble-like shine.

8	Breaking Strength	≥ 700 N	≥ 700 N		
9	Water Absorption	≤ 0.5%	≤ 0.08 %,Individual Max 0.1%		ISO 10545-3
10	Surface Abrasion Resistance	Report abrasion class & cycles passed	RUSTIC =Class IV		ISO 10545-7
11	Scratch Hardness (MOH's Scale)	Manufacture to state the class	Min 5	6	EN101
12	Glossiness	Manufacture to state the class	Max 8		Glossmeter 60 degree
13	Stain Resistance*	Min Class 3	Min Class 3		ISO 10545-14
14	Chemical Resistance#	Manufacture to state the class	Min GB,GLB,GHB		ISO 10545-13
15	Crazing Resistance (glazed tiles)	Required	Passes 4 cycles at 7.5 kg/cm²		ISO 10545-11
16	Imapct Resistance	Test Method Available	No identification or cracking		ISO 10545-5
17	Co-efficient of thermal Expansion	Test Method Available	6 x 10 ⁻⁶ Max		ISO 10545-8
18	Frost Resistance	Required	100 Cycle Pass		ISO 10545-12
19	Co-efficient of Friction	Manufacture to state the class	≥ 0.40		ISO 10545-17
20	Skid Resistance	Skid Resistance	R-10 to R-12	R-12	DIN51130
20	Thermal Shock Resistance	No Damage	10 cycles passed	No damage	ISO 10545-9

* Vitrified tiles have resistance to most of the stains / chemicals but, it is recommended to take due care while laying and for day-to-day maintenance.
Resistance to acids & alkalies (Exception of Hydrofluoric Acid & its Compounds)

- Colours in the catalogue are as accurate as printing process allows. Please check actual tile sample before making the final selection.

Sizes mentioned in the catalogue are nominal sizes only.

No claim will be entertained once the tiles are fixed.

For better laying, please follow the instructions on the packaging box.

In case it is required to lay the tiles on wall or floor in STAGGERED PATTERN, then always lay them in Overlap 20:80 ratio, as shown in VISUAL 1 instead of Brick pattern (overlap 50:50 ratio), as shown in VISUAL 2.

☐

Please make sure to check the shade/finish with the sales agent/dealer before making the final purchase because there might be variation in actual finish and that shown in the catalogue. The company will not bear any loss in such case.
- PACKING DETAILS
- | DIMENSIONS (MM) | NO. OF SLABS/BOX | COVERAGE AREA |
|------------------|------------------|--------------------|
| 1190x2400 9 MM | 01 | 2.85 ^{m2} |
| 1190x600 9 MM | 03 | 2.14 ^{m2} |
| 230x800 9 MM | 08 | 1.11 ^{m2} |
| 325x270 9 MM | 08 | 0.62 ^{m2} |
| 325x275 9 MM | 08 | 0.62 ^{m2} |
| 300x300 9 MM | 08 | 0.74 ^{m2} |
- TECHNICAL SPECIFICATIONS
- | S.N. | Technical Characteristics | ISO 13006:2018 Group B Ia | Uniterra Value | Measured value | Test Method |
|------|-----------------------------------|--|-------------------------------|---------------------|----------------------|
| 1 | Length and Width | ± 0.3% | ± 0.10% | | ISO 10545-2 |
| 2 | Thickness | ± 5.0% | ± 3.00% | | |
| 3 | Straightness of Sides | ± 0.3% | ± 0.10% | | |
| 4 | Rectangularity | ± 0.3% | ± 0.10% | | |
| 5 | Surface Flatness | ± 0.4% | ± 0.10% | | |
| 6 | Surface Quality | Minimum 95% free from visible defects. | No visible defects. | No visible defects. | |
| 7 | Modulus of Rupture | ≥ 35 N/mm² | ≥ 40 N/mm² | | ISO 10545-4 |
| 8 | Breaking Strength | ≥ 1300 N | ≥ 2000 N | | |
| 9 | Water Absorption | ≤ 0.5% | ≤ 0.08 %,Individual Max 0.1% | | ISO 10545-3 |
| 10 | Surface Abrasion Resistance | Report abrasion class & cycles passed | POLISH = Class III | | ISO 10545-7 |
| 11 | Scratch Hardness (MOH's Scale) | Manufacture to state the class | Min 5 | 6 | EN101 |
| 12 | Glossiness | Manufacture to state the class | >95 | | Glossmeter 60 degree |
| 13 | Stain Resistance* | Min Class 3 | Min Class 3 | | ISO 10545-14 |
| 14 | Chemical Resistance# | Manufacture to state the class | Min GB,GLB,GHB | | ISO 10545-13 |
| 15 | Crazing Resistance (glazed tiles) | Required | Passes 4 cycles at 7.5 kg/cm² | | ISO 10545-11 |
| 16 | Imapct Resistance | Test Method Available | No identification or cracking | | ISO 10545-5 |
| 17 | Co-efficient of thermal Expansion | Test Method Available | 6 x 10 ⁻⁶ Max | | ISO 10545-8 |
| 18 | Frost Resistance | Required | 100 Cycle Pass | | ISO 10545-12 |
| 19 | Co-efficient of Friction | Manufacture to state the class | > 0.2 | | ISO 10545-17 |
| 20 | Skid Resistance | Skid Resistance | R-10 to R-12 | R-12 | DIN51130 |
| 21 | Thermal Shock Resistance | No Damage | 10 cycles passed | No damage | ISO 10545-9 |
