

M. ANANDAM & CO.,
CHARTERED ACCOUNTANTS

INDEPENDENT AUDITORS' REPORT

To
The Members of Vennar Ceramics Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Vennar Ceramics Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive income), the Cash Flow Statement and Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Ind AS financial statements")

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and effectively design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers

internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st March, 2018, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure , a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the board of directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as director in terms of section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i) The Company does not have any pending litigations which would impact its financial position;
- ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure - A to the Auditors' Report

The Annexure referred to in our report to the members of the Company for the year ended on 31st March, 2018. We report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
(b) As explained to us, the fixed assets have been physically verified by the management in a periodical manner, which in our opinion is reasonable, having regard to the size of the Company and the nature of its business. Pursuant to the programme, certain fixed assets were physically verified by the Management during the year. In our opinion, and according to the information and explanations given to us, no material discrepancies were noticed on such verification.
(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) As explained to us the physical verification of inventory has been conducted at the year-end by the management. The discrepancies noticed on verification between the physical stocks and book records were not material.
- (iii) The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, paragraph 3 (iii) (a) to (c) of the Order is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has not a) granted loans; b) made investments; c) guarantees; and d) provided securities under section 185 and 186 of the Act. Accordingly, paragraph 3 (iv) of the Order is not applicable.
- (v) The company has not accepted deposits within the meaning of Sections 73 to 76 of the Act and the rules framed thereunder.
- (vi) In our opinion and according to the information and explanations given to us, maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Act.
- (vii) (a) According to the information and explanations given to us and the records of the Company examined by us, the Company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, value added tax, wealth tax, service tax, customs duty, excise duty, value added tax, cess and any other statutory dues as applicable with the appropriate authorities and there were no arrears of outstanding statutory dues as at the last day of the financial year concerned for a period of more than six months from the date they became payable.
(b) According to the information and explanations given to us and records of the Company examined by us, there are no disputed statutory dues of income tax, sales tax, valued added tax, wealth tax, service tax, customs duty, excise duty or cess as at 31st March, 2018.
- (viii) The Company has not defaulted in repayment of loans or borrowings to banks.
- (ix) The Company did not raise any money by way of initial public offer or further public offer during the year. In our opinion and according to the information and explanations given to us, the term loans have been applied for the purpose for which the loans were obtained.

- (x) To the best of our knowledge and belief and according to the information and explanations given to us, no fraud on or by the Company was noticed or reported during the year.
- (xi) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3 (xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards.
- (xiv) During the year the Company has not made preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under (xiv) of CARO 2016 is not applicable to the Company.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3 (xv) of the Order is not applicable
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Vennar Ceramics Limited** ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

1. Corporate information

Vennar Ceramics Limited ('the Company') is a limited company domiciled in India and was incorporated on 18th July, 1994. The registered office of the Company is located at 153, Sitha Nilayam, Dwarakapuri Colony, Punjagutta, Hyderabad – 500082, India. The Company is a subsidiary of Kajaria Ceramics Limited.

The Company is a manufacturer of ceramic wall tiles and started its operations in 2012 with a capacity to produce 2.90 million sq mtr tiles per annum at Vishnupuram, Perikigudem (V), Mandavalli (M), Krishna District – 521345, Andhra Pradesh.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and relevant amendment rules issued thereafter.

The financial statements have been prepared on a historical cost basis, except for the certain assets and liabilities which have been measured at different basis and such basis has been disclosed in relevant accounting policy.

The financial statements are presented in INR and all values are rounded to the nearest Lakhs (INR 00,000), except when otherwise indicated.

2.2 Significant accounting policies

a) Current versus non-current classification

The Company has ascertained its operating cycle as twelve months for the purpose of current/non-current classification of its assets and liabilities.

An asset/liability is treated as current when it is:

- Expected to be realised or intended to be sold or consumed or settled in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised/settled within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

b) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost [i.e., cost of acquisition or construction inclusive of freight, erection and commissioning charges, non-refundable duties and taxes, expenditure during construction period, borrowing costs (in case of a qualifying asset) up to the date of acquisition/ installation], net of accumulated depreciation and accumulated impairment losses, if any.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

When significant parts of Property, Plant and Equipment (identified individually as component) are required to be replaced at intervals, the Company derecognizes the replaced part, and recognizes the new part with its own associated useful life and it is depreciated accordingly. Whenever major inspection/overhaul/repair is performed, its cost is recognized in the carrying amount of respective assets as a replacement, if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Property, Plant and Equipments are eliminated from financial statements, either on disposal or when retired from active use. Losses/gains arising in case of retirement/disposal of Property, Plant and Equipment are recognized in the Statement of Profit and Loss in the year of occurrence.

Depreciation on property, plant and equipments are provided to the extent of depreciable amount on the straight line (SLM) Method. Depreciation is provided based on the useful life and in the manner prescribed in Schedule II to the Companies Act, 2013 except on some assets, where useful life has been taken based on external / internal technical evaluation as given below:

Particulars	Useful lives
Plant and Machinery	7, 10 & 18 years
Fit-out and other assets at sales outlets	5 years

Leasehold Land and Leasehold Improvements are amortized over the period of the lease or the useful life of the asset, whichever is lower.

The residual values, useful lives and methods of depreciation/amortization of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Capital work in progress

Capital work in progress includes construction stores including material in transit/ equipment / services, etc. received at site for use in the projects.

All revenue expenses incurred during construction period, which are exclusively attributable to acquisition / construction of fixed assets, are capitalized at the time of commissioning of such assets.

d) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

Costs relating to computer software are capitalised and amortised on straight line method over their estimated useful economic life of six years.

e) Research & Development Costs

Research and development costs that are in nature of tangible assets and are expected to generate probable future economic benefits are capitalised as tangible assets. Revenue expenditure on research and development is charged to the statement of profit and loss in the year in which it is incurred.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

f) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which they occur.

g) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss.

h) Inventories

Items of inventories are measured at lower of cost and net realizable value after providing for obsolescence, wherever considered necessary. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Cost of raw material, stores and spares, packing materials, trading and other products are determined on weighted average basis.

i) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue from operations includes sale of goods and services, adjusted for discounts (net).

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

j) Foreign currency transactions

The Company's financial statements are presented in INR, which is also its functional currency.

Foreign currency transactions are initially recorded in functional currency using the exchange rates as at the date of transaction.

At each balance sheet date, foreign currency monetary items are reported using the exchange rate prevailing at the year end.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

k) Taxes on income

Current tax

Current tax is measured at the amount expected to be paid/ recovered to/from the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity/other comprehensive income is recognised under the respective head and not in the statement of profit & loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets are offset against current tax liabilities if, and only if, a legally enforceable right exists to set off the recognised amounts and there is an intention either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Tax relating to items recognized directly in equity/other comprehensive income is recognized in respective head and not in the Statement of Profit & Loss.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Unused Tax Credits (Minimum Alternate Tax (MAT) Credit entitlement):

MAT credit entitlement represents the amounts paid in a year under Section 115JA / 115JB of the Income Tax Act 1961 ('IT Act') which is in excess of the tax payable, computed on the basis of normal provisions of the IT Act.

Such excess amount can be carried forward for set off in future periods in accordance with the relevant provisions of the IT Act. Since such credit represents a resource controlled by the Company as a result of past events and there is evidence as at the reporting date that the Company will pay normal income tax during the specified period, when such credit would be adjusted, the same has been disclosed as Deferred Tax Asset in the balance sheet with a corresponding credit to the profit and loss account.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

Such assets are reviewed at each balance sheet date and written down to reflect the amount that will not be available as a credit to be set off in future, based on the applicable taxation law then in force.

l) Employee benefits

All employee benefits that are expected to be settled wholly within twelve months after the end of period in which the employee renders the related services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, etc. are recognized as expense during the period in which the employee renders related service.

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered the service entitling them to the contribution.

The Company's contribution to the Provident Fund is remitted to provident fund authorities and are based on a fixed percentage of the eligible employee's salary and debited to Statement of Profit and Loss.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. Gratuity is a defined benefit obligation.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to Statement of Profit & Loss in subsequent periods.

Past service costs are recognised in Statement of Profit & Loss in the period of plan amendment.

Compensated absences and other benefits like gratuity which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as a non-current liability at the present value of the defined benefit obligation at the balance sheet date.

m) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the transaction. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss. Contingent rentals are recognised as expenses in the periods in which they are incurred.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term however, rent expenses shall not be straight-lined, if escalation in rentals is in line with expected inflationary cost.

n) Provisions, Contingent liabilities and Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

o) Earnings per share

Basic earnings per equity share is computed by dividing the net profit after tax attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

p) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, cheques on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

q) Fair value measurement

The Company measures financial instruments such as derivatives and certain investments, at fair value at each balance sheet date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

r) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Classification

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flows characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in below categories:

• **Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

• **Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

• **Financial assets at fair value through profit or loss**

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Derecognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model for measurement and recognition of impairment loss, the calculation of which is based on historical data, on the financial assets that are trade receivables or contract revenue receivables and all lease receivables.

(ii) Financial liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

• **Financial liabilities at amortised cost**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

• **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

(iv) Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps, full currency swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss.

s) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an asset, the cost of the asset is shown at gross value and grant thereon is treated as capital grant which is recognized as income in statement of profit and loss over the period and in proportion in which depreciation is charged.

When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset.

When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as a government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

- t) Unless specifically stated to be otherwise, these policies are consistently followed.

2.3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the following areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the financial statements. Changes in estimates are accounted for prospectively.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractual, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgments and the use of estimates regarding the outcome of future events.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Notes to the Financial Statements for the year ended 31st March, 2018
Significant Accounting Policies

These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

(b) Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF (Discounted Cash Flow) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

(d) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgments in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Particulars	31 March, 2018	31 March, 2018	31 March, 2017	31 March, 2017
	Number of Shares	Amount	Number of Shares	Amount
Shares outstanding at the beginning of the year	150,00,000	1,500.00	150,00,000	1,500.00
Shares issued during the year	90,00,000	900.00	-	-
Shares outstanding at the end of the year	240,00,000	2,400.00	150,00,000	1,500.00

d) Rights, preferences and restrictions attached to the equity shares

The Company has only one class of equity shares having a par value of INR 10/- each per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the Annual General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the share holders.

e) Shares held by Holding Company

27 Tax Reconciliation

(a) Income tax expense:

The major components of income tax expenses for the years ended March 31, 2018 and March 31, 2017 are as follows:

(i) Profit or loss:

Particulars	31 March, 2018	31 March, 2017
Current tax expense	-	31.23
Less: Unused Tax Credits	-	(31.23)
Deferred tax expense	(339.71)	61.23
Total income tax expense recognised in statement of Profit & Loss	(339.71)	61.23

Other Comprehensive Income

Particulars	31 March, 2018	31 March, 2017
Actuarial gain/(loss) on employee benefits (net of tax)	4.66	(2.28)
Income tax charged to OCI	4.66	(2.28)

(b) Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate for 31 March, 2018 and 31 March, 2017:

Particulars	31 March, 2018	31 March, 2017
Accounting profit / (loss) before income tax	(1,005.79)	160.12
At India's statutory income tax rate of 30.09% (31 March 2017: 33.063%) and tax expenses recognised as per MAT@19.06% (31 March 2017: 20.38% including SC + ED Cess)	-	31.23
Less: Unused Tax Credits	-	(31.23)
Deferred tax expense recorded in statement of Profit or loss	(344.37)	63.51
	(344.37)	63.51

Particulars	1 April, 2017	Provided during the year	31 March, 2018
Deferred tax assets:			
Remeasurement gains/(losses) on defined benefit obligations	2.27	0.44	2.71
Carry forward losses	28.01	362.58	390.59
Unused tax credits	289.95	-	289.95
Total deferred tax assets (A)	320.23	363.02	683.25
Deferred tax liabilities:			
Related to Plant, Property & Equipment (Depreciation)	518.85	27.97	546.82
Total deferred tax liabilities (B)	518.85	27.97	546.82
Deferred Tax Assets/(Liabilities) (Net) (A-B)	(198.62)	335.05	136.43

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Vennar Ceramics Limited

Notes to Financial Statements for the year ended 31 March, 2018

(Amount in Rupees lakhs, unless otherwise stated)

28 Components of Other Comprehensive Income (OCI)

Particulars	31 March, 2018	31 March, 2017
Actuarial gain/(loss) on employee benefits (net of tax)	10.83	(4.62)
	10.83	(4.62)

29 Earnings per share

Basic and Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity shareholders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	31 March, 2018	31 March, 2017
(a) Profit/(loss) attributable to equity shareholders for basic earnings and diluted EPS	(666.09)	98.89
(b) Weighted average number of equity shares for basic and diluted EPS (full figures)	153,94,521	150,00,000
Basic and diluted earnings per equity share (Rs.) [a/b]	(4.33)	0.66
Face value per share (Rs.)	10.00	10.00

* Since there are no dilutive potential equity shares, the diluted earnings per equity share is the same as the basic earnings per equity share.

Vennar Ceramics Limited
Notes to Financial Statements for the year ended 31 March 2018
(Amount in Rupees lakhs, unless otherwise stated)

30 Employee benefits

Defined Contribution Plans - General Description

Provident Fund: During the year, the company has recognised **Rs.28.96 lakhs (2016-17: Rs.21.06 lakhs)** as contribution to Employee Provident Fund in the Statment of Profit and Loss

Defined Benefit Plans - General Description

Gratuity:

Each employee rendering continuous service of 5 years or more is entitled to receive gratuity amount equal to 15/26 of the monthly emoluments for every completed year of service subject to maximum of 20 Lakhs at the time of separation from the company.

Other long-term employee benefits - General Description

Leave Encashment:

Each employee is entitled to get 30 earned leaves for each completed year of service. Encashment of earned leaves is allowed during service leaving a minimum balance of 30 days subject to maximum accumulation up to 60 days.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the fund status and amounts recognised in the balance sheet for the respective plans:

Changes in the present value of the defined benefit obligation are, as follows:

	Gratuity	Leave Encashment
Defined benefit obligation at 1 April 2016	24.51	3.23
Current service cost	2.84	3.29
Interest expense	1.96	0.26
Benefits paid	-	-
Actuarial (gain)/ loss on obligations - OCI	6.90	-
Defined benefit obligation at 31 March 2017	36.21	6.78
Current service cost	8.40	16.92
Interest expense	2.60	0.54
Benefits paid	(7.51)	-
Actuarial (gain)/ loss on obligations - OCI	(1.08)	(15.49)
Defined benefit obligation at 31 March 2018	38.62	8.76

Reconciliation of fair value of plan assets and defined benefit obligation:

Particulars	Gratuity	Leave Encashment
Fair value of plan assets at 31 March 2017	38.22	-
Defined benefit obligation at 31 March 2017	36.21	6.78
Amount recognised in the Balance Sheet at 31 March 2017*	(2.01)	6.78
Fair value of plan assets at 31 March 2018	39.19	-
Defined benefit obligation at 31 March 2018	38.62	8.76
Amount recognised in the Balance Sheet at 31 March 2018	(0.57)	8.76

*During the year ended 31st March, 2017, the Company has excess provision in respect of Leave Encashment of Rs. 0.66 lakhs

Note: The Company has not recognised the excess fund balance.

The principal assumptions used in determining gratuity are shown below:	31 March, 2018	31 March, 2017
Discount rate	8%	8%
Future salary increases	6%	6%

Economic and Demographic Assumptions

Economic Assumptions

Estimates of future compensation increases considered take into account the inflation, seniority, promotion and other relevant factors.

Discount rate is based on the prevailing market yields of Indian Government securities as at 31 March 2018 for the estimated term of the obligations.

Demographic Assumptions	31 March, 2018	31 March, 2017
Retirement Age	58	58
Mortality table	LIC (2006-08)	LIC (2006-08)

Amount recognised in Statement of Profit and Loss:

	31 March, 2018	31 March, 2017
Current service cost	8.40	16.92
Net interest expense	2.60	0.54
Interest Income on Plan Assets	(3.00)	-
Amount recognised in Statement of Profit and Loss for year ended 31 March 2018	7.99	17.47
Current service cost	2.84	3.29
Net interest expense	1.96	0.26
Remeasurement of Net Benefit Liability/ Asset	6.90	-
Amount recognised in Statement of Profit and Loss for year ended 31 March 2017	11.70	3.55

Amount recognised in Other Comprehensive Income:

	31 March, 2018	31 March, 2017
Actuarial (gain)/ loss on obligations	(1.08)	(15.49)
Return on plan assets (excluding amounts included in net interest expense)	0.63	-
Amount recognised in Other Comprehensive Income for year ended 31 March 2018	(0.45)	(15.49)
Actuarial (gain)/ loss on obligations	6.90	-
Return on plan assets (excluding amounts included in net interest expense)	-	-
Amount recognised in Other Comprehensive Income for year ended 31 March 2017	6.90	-

The major categories of plan assets as a percentage of total plan assets:

Investment Details	31st March, 2018	31st March, 2017
	Gratuity	Gratuity
Insurer Managed Funds	100%	100%

The principal assumptions used in determining gratuity and leave encashment obligations for the Company's plans are shown below:

	31st March, 2018	31st March, 2017
Discount rate (in %)		
Gratuity	8.00	8.00
Leave Encashment	8.00	8.00
Salary Escalation (in %)		
Gratuity	6.00	6.00
Leave Encashment	6.00	6.00
Expected average remaining working lives of employees (in years)		
Gratuity	22.08	23.02
Leave Encashment	22.08	23.02

A quantitative sensitivity analysis for significant assumption as at 31 March 2018 is as shown below:

Gratuity

Assumptions	31st March, 2018		31st March, 2018	31st March, 2018	
	Discount rate		Salary escalation	Assumed Attrition Rate	
Sensitivity Level	1% increase	1% decrease	1% increase	1% increase	1% decrease
Impact on defined benefit obligation	3,22,088	(3,73,873)	(3,98,989)	(41,249)	47,972

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Maturity Profile of Defined Benefit Obligations

	Gratuity	Leave Encashment
	31st March, 2018	31st March, 2017
Within the next 12 months (next annual reporting period)	2.45	1.67
Between 2 and 5 years	13.41	5.22
Between 5 and 10 years	18.57	3.44
Beyond 10 years	-	-
Total expected payments	34.43	10.33

The average duration of the defined benefit plan obligation at the end of the reporting period is 6.56 years for Leave Encashment and 14.53 years for Gratuity.

Best estimate of contribution during the next year would be Rs. 4,37,861 for Leave Encashment and Rs. (28,604) for Gratuity

Financial liabilities				
Long term borrowings	2,285.24	2,319.08	2,285.24	2,319.08
Short term borrowings	1,400.72	1,192.48	1,400.72	1,192.48
Trade Payables	884.22	1,022.49	884.22	1,022.49
Current maturities of long term debt	634.00	637.21	634.00	637.21
Other Financial Liabilities	51.38	48.33	51.38	48.33
Total	5,255.57	5,219.59	5,255.57	5,219.59

33 Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2018:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs
			(Level 1)	(Level 2)	(Level 3)
Assets measured at amortised cost:					
Security deposits	31-Mar-18	102.21	-	-	102.21
Advances to employees	31-Mar-18	1.10	-	-	1.10
Trade receivables	31-Mar-18	111.26	-	-	111.26
Cash and cash equivalents	31-Mar-18	3.30	-	-	3.30
Bank balances other than cash and cash equivalents	31-Mar-18	63.54	-	-	63.54
Other Financial Assets	31-Mar-18	330.56	-	-	330.56

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2017:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs
			(Level 1)	(Level 2)	(Level 3)
Assets measured at amortised cost:					
Security deposits	31-Mar-17	125.77	-	-	125.77
Advances to employees	31-Mar-17	2.51	-	-	2.51
Trade receivables	31-Mar-17	66.82	-	-	66.82
Cash and cash equivalents	31-Mar-17	4.63	-	-	4.63
Bank balances other than cash and cash equivalents	31-Mar-17	28.79	-	-	28.79
Other Financial Assets	31-Mar-17	301.95	-	-	301.95

Quantitative disclosures fair value measurement hierarchy for liabilities as at 31 March 2018:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs
			(Level 1)	(Level 2)	(Level 3)
Liabilities measured at amortised cost:					
Long term borrowings	31-Mar-18	2,285.24	-	-	2,285.24
Short term borrowings	31-Mar-18	1,400.72	-	-	1,400.72
Trade Payables	31-Mar-18	884.22	-	-	884.22
Current maturities of long term debt	31-Mar-18	634.00	-	-	634.00
Other Financial Liabilities	31-Mar-18	51.38	-	-	51.38

Quantitative disclosures fair value measurement hierarchy for liabilities as at 31 March 2017:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs
			(Level 1)	(Level 2)	(Level 3)
Liabilities measured at amortised cost:					
Long term borrowings	31-Mar-17	2,319.08	-	-	2,319.08
Short term borrowings	31-Mar-17	1,192.48	-	-	1,192.48
Trade Payables	31-Mar-17	1,022.49	-	-	1,022.49
Current maturities of long term debt	31-Mar-17	637.21	-	-	637.21
Other Financial Liabilities	31-Mar-17	48.33	-	-	48.33

The management assessed that fair value of financial assets and liabilities significantly approximate their carrying amounts largely due to the short term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company determines fair values of financial assets or liabilities by discounting the contractual cash inflows / outflows using prevailing interest rates of financial instruments with similar terms. The initial measurement of financial assets and financial liabilities is at fair value. Further, the subsequent measurements of all assets and liabilities is at amortised cost, using effective interest rate method.

The following methods and assumptions were used to estimate fair values:-

- The fair value of the Company's interest bearings borrowings are determined using discount rate that reflects the entity's discount rate at the end of the reporting period. The own non-performance risk as at the reporting period is assessed to be insignificant.

- For other non-current financial assets and liabilities, the fair value is the same as the amortised cost, measured using the discount rate at the time of initial recognition of the financial asset and liabilities. A one percent change in the unobservable inputs used in fair valuation of Level III assets and liabilities does not have a significant impact on its value.

Fair Value of Financial Assets and Liabilities measured at amortised cost

The carrying amount of the current financial assets and current financial liabilities are considered to be the same as their fair value due to their short term nature. The non-current borrowings and security deposits are retained at amortised cost which are considered as their fair value.

34 Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivable and from its financing activities, including deposits with banks and financial institutions). Credit risk from investments with banks and other financial institutions is managed by the treasury function in accordance with the management policies. Investments of surplus funds are only made with approved counterparties who meet the appropriate rating and/ or other criteria and are only made within approved limits. The management continually re-assesses the company's policy and updates as required. The limits are set to minimise the concentration of risk and therefore mitigate financial loss through counterparty failure. None of the financial instruments of the Company result in material concentration of credit risk. The maximum credit risk exposure relating to financial assets is represented by the carrying value as at the balance sheet date.

Exposure to credit risk:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk is as follows:

Particulars	As at 31 March 2018	As at 31 March 2017
Security deposits	102.21	125.77
Advances to employees	1.10	2.51
Trade receivables	111.26	66.82
Cash and cash equivalents	3.30	4.63
Other bank balances	63.54	28.79
Other financial assets	330.56	301.95

Trade receivables:

Customer credit risk is managed by each business unit subject to the company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit review and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored.

At the year end, the Company does not have any significant concentration of bad debt risk.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the authorised person. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments

Year ended 31st March, 2018

Particulars	On demand	Less than 3 months	3 to 12 months	1 to 5 years	>5 years	Total
Borrowings	1400.72	158.50	475.50	2,285.24	-	4319.96
Trade and other payables	-	884.22	-	-	-	884.22
Other financial liabilities	51.38	-	-	-	-	51.38

Year ended 31st March, 2017

Particulars	On demand	Less than 3 months	3 to 12 months	1 to 5 years	>5 years	Total
Borrowings	1192.48	158.50	478.71	2,319.08	-	4148.77
Trade and other payables	-	1022.49	-	-	-	1022.49
Other financial liabilities	45.91	-	-	-	-	45.91

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Selective hedging is used within the Company to manage risk concentrations at both the relationship and industry levels.

Collateral

Nil

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits etc.

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant and on the basis of hedge designations in place at 31 March, 2018

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2018 and 31 March 2017 including the effect of hedge accounting

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term and short-term borrowings. The impact on the entity due to any interest rate fluctuation is given below:

Particulars	Increase/decrease in basis points	Effect on profit before tax
31-Mar-18		
INR	+50	-21.47
INR	-50	21.47
31-Mar-17		
INR	+50	-21.64
INR	-50	21.64

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). The exposure of entity to foreign currency risk is very limited on account of limited transactions in foreign currency.

Vennar Ceramics Limited

Notes to Financial Statements for the year ended 31 March 2018

(Amount in Rupees lakhs, unless otherwise stated)

35 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

Capital includes equity attributable to the equity holders of the Parent. The primary objective of the Group's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

Particulars	Amount in Lakhs	
	31 March, 2018	31st March, 2017
Borrowings	3,685.96	3,511.56
Other Liabilities	634.00	637.21
Trade and other payables	884.22	1,022.49
Less: Cash and short term deposits	66.85	33.42
Net debts	5,137.34	5,137.84
Equity	2,400.00	1,500.00
Other Equity	865.66	1,520.92
Total Capital	3,265.66	3,020.92
Capital and net debt	8,403.00	8,158.76
Gearing ratio (%)	61.14%	62.97%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2018 and 31 March 2017.
